

# Girl Scout Programs Journey Badges!

## Daisies:

### Clovers Story

Buzz, buzz, buzz! Bees take Clover and her friends on an amazing journey learning how they can use resources wisely! Did you know you can recycle food, or even grow your own? Join us as we explore the Living Coast Discovery Center and learn the many ways we can make little changes that have big impacts! Through crafts, garden time, and plenty of encounters with our animal neighbors, your scouts will learn it's cool to conserve!

### Rosie's Story

How can we help make the world a better place?! Join us on an adventure with Rosie and her friends as they explore the Living Coast Discovery Center, meet animal neighbors, and discover what we can do to help keep their...and our habitat clean and healthy! Through animal encounters, acting, nature hikes and beach cleanups, this badge will inspire the environmentalist in children and parents alike!

## Brownies:

### Bugs!

Bugs come in all shapes and sizes! We will talk to experts, go on bug hunts, see what our new friends like to eat, and even who likes to eat them! Complete with up close and personal animal encounters, girls scouts will learn how the tiniest creatures can help us in the biggest ways and even create a bug model to take home and inspire others!

### Household Elf

Did you know that you can save energy by unplugging your appliances? How about helping the environment by creating homemade bug sprays? Come and explore the amazing ways we can help keep our home clean and green! Through hands on activities, games, a take home craft and even a very special animal feeding we will figure out together how to reduce, re-use and go natural!

## Juniors:

### Animal Habitats

Have you ever met a Red Tailed Hawk or come face to face with a Green Sea turtle? Come meet the animals that call southern California habitats home! We will explore what adaptations each one has to survive, what they eat, how they move, and even participate in a special activity to help keep their home clean. Through live animal encounters, trail hikes, and even a special animal feeding, your scouts will become environmental ambassadors and help spread the word!
